

*Il en est des livres comme du feu dans nos foyers :
on va prendre le feu chez son voisin,
on l'allume chez soi,
on le communique à d'autres
et il appartient à tous.*

Voltaire

Bibliographie

n général, une bibliographie se présente sous une forme monolithique. Comme la nôtre est assez longue et qu'elle traite de différents sujets, on a préféré classer les références bibliographiques d'après les grands thèmes. Si la référence est un article, on écrira son titre entre guillemets. Si c'est un livre, son titre sera écrit en italique. On trouvera aussi en souligné des adresses URL disponibles à travers le World-Wide Web (WWW). Voici la liste des thèmes :

1. Physique de l'état granulaire
Généralités sur les milieux granulaires, observations de phénomènes dans la nature, morphologie des grains
2. Automates cellulaires
Automates cellulaires en général et appliqués aux milieux granulaires, états critiques auto-organisés
3. Méthodes numériques concernant les milieux granulaires
Méthodes des éléments distincts, modélisations, simulations
4. Micromécanique
Modèles de contact, modèles de collisions
5. Géométrie algorithmique
Triangulations, géométrie algorithmique, structures de données, détection de contacts
6. Parallélisme
Techniques de parallélisation, Cray T3D, méthodes numériques parallèles
7. Autres références
Tout ce qui n'a pas pu être classé dans les autres sujets
8. Rapports produits au cours de cette thèse
Rapports internes, articles publiés, travaux d'étudiants

1. Physique de l'état granulaire

CURRICULUM VITAE

Nom Didier MÜLLER
Adresse Rue du Général-Comman 13, CH-2950 Courgenay (JU)
Date de naissance 18 janvier 1967
Lieu d'origine Courgenay (JU)

Formation

1982-1985 Maturité de type A (latin/grec), obtenue au lycée cantonal de Porrentruy (JU).
1986-1991 Diplôme d'ingénieur informaticien de l'école polytechnique fédérale de Lausanne (EPFL).
1992 XIII^e cours postgrade en informatique technique : “les réseaux de neurones”.
1993 I^{er} cours postgrade en recherche opérationnelle : “optimisation discrète”.

Expériences professionnelles

1991-1996 Assistant du professeur Thomas M. Liebling (école polytechnique fédérale de Lausanne, département de mathématiques, chaire de recherche opérationnelle).
1994-1996 Responsable du site *WWW* de la chaire.
1995-1996 Coorganisateur, responsable du site *WWW* et de la base de données du XVI^e symposium international de programmation mathématique (ISMP 97).
